

Matrox GatorEye >>

GigE Vision® industrial camera family with IP67-rating.

Key Features

IP67 rated housing

PoE capable

12-24 volt operation

VGA to 2 Mpixel CCD sensors

monochrome and color

opto-coupled trigger and strobe

8 GPIOs

controlled current source for powering LED illuminators directly

royalty-free use of Matrox Imaging Library (MIL) driver for GigE Vision®

Designed for harsh industrial environments

The Matrox GatorEye IP67-rated GigE Vision® industrial camera family is designed for use in damp and dusty environments such as glass bottle manufacturing, or environments where the processing equipment is subject to frequent wash down such as food and beverage plants. The Matrox GatorEye is fully integrated, eliminating the need to separately source a sealed camera housing. Moreover, the housing provides easy access to the lens, avoiding the hassle of having to remove the whole camera from a sealed housing to adjust the lens.

Flexible power options

The Matrox GatorEye camera can operate on a separate 12 to 24 Volt input, the latter the most typically found in electrical cabinets on plant floors. Cabling is further simplified by making use of the camera's Power-over-Ethernet (PoE) capability, which enables power and data transmission over a single cable.

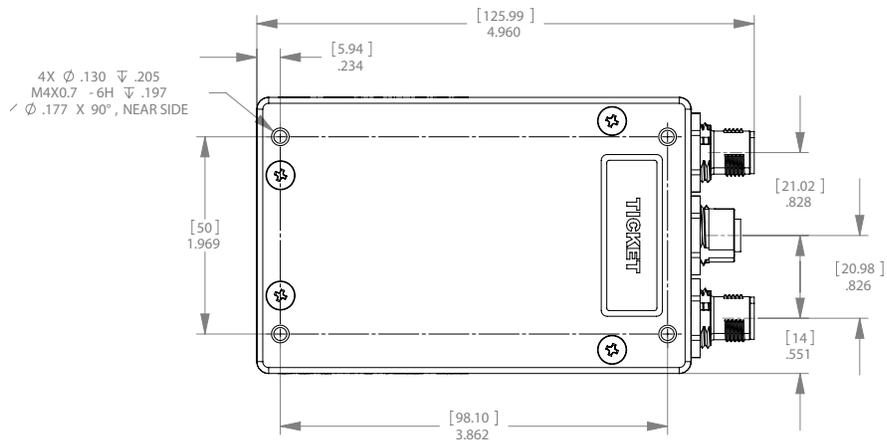

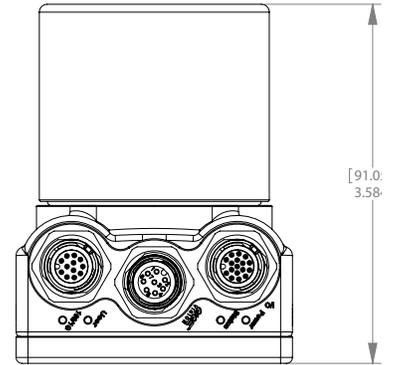

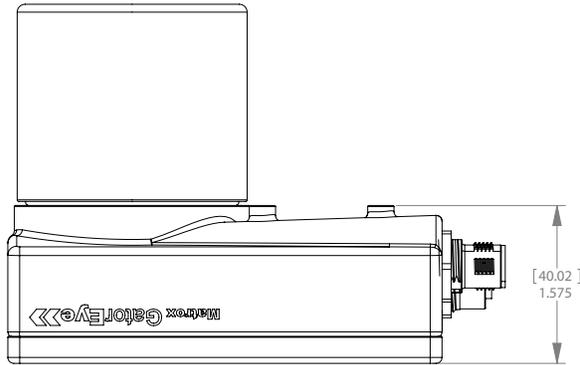

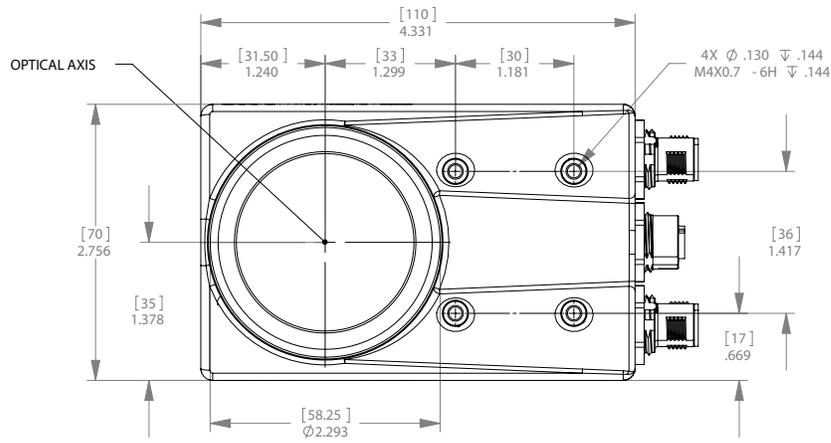

Versatile Connectivity

The Matrox GatorEye offers numerous I/Os for controlling all aspects of image capture. An opto-isolated trigger input with associated debouncing circuitry enables to directly synchronize image capture with external events. A strobe output enables the control of scene illuminators. A controlled current source output is also provided for directly driving a LED illuminator, eliminating the need for a separate controller, which reduces costs and simplifies integration. In addition, the Matrox GatorEye offers eight GPIOs for directly interacting with other automation devices.

Part number & Description

GE300*	Matrox GatorEye camera with 640x480 @ 110fps 1/3" monochrome CCD.
GE300C*	Same as above but with color CCD.
GE1200*	Matrox GatorEye camera with 1280x960 @ 22fps 1/3" monochrome CCD.
GE1200C*	Same as above but with color CCD.
GE1900*	Matrox GatorEye camera with 1600x1200 @ 15fps 1/1.8" monochrome CCD.
GE1900C*	Same as above but with color CCD.
GT-CBL-PWR/3*	9.8' or 3m cable for Matrox GatorEye to connect power and GPIOs. M12 to open end.
GT-CBL-ETH/5*	16.4' or 5m Ethernet cable for Matrox GatorEye. M12 to RJ45 plug.
BREAKOUT-BOX*	DIN-rail mountable breakout box for easy connection of GPIOs, trigger, strobe and power to Matrox GatorEye. Includes M12 to DB25 cable.
